GARDEN MUMS FOR SPRING FLOWERING

Garden varieties can be flowered as spring pot plants without shade or lights. Use them in combination or mixed pots, sell them for special occasions, or run specials on them for cash and carry. Let the customer choose by color in the spring, enjoy them, with the added appeal of having bloom again in the fall garden.

Here's how:

1. Pot cuttings March 1st to 4th. 1 Cutting in 3", 4 in 5", or 5 in 6" pots.
2. Make a soft pinch one week later.
3. Plants must be kept at 60 degrees till buds set.
4. Apply a complete fertilizer weekly when roots show at the edge of the soil ball.
5. By using several varieties, the spread of bloom is from late April thru May.

SHIPPING INFORMATION

We cannot be responsible for any damage due to freezing, delay, or damage in transit. Any damage from any cause should be reported immediately to the carrier and claim made for loss. We consider Express or Air Express the safest means of shipment.

Mum rooted cuttings are packaged in specially constructed cartons and with outside protective wrapping during the winter months. All cuttings are taken from lighted stock plants, rooted under ideal conditions and packaged in a manner to assure safe arrival. Shipping cartons should be opened at once upon arrival.

SUBSTITUTION. Your permission to substitute the nearest variety, if this is necessary, will expedite your shipment. A variety of equal or better value will be supplied.

Mum rooted cuttings are available from January 1st to July 1st. The minimum total order that can be accepted is 100 cuttings. 25 of each variety is the minimum that can be supplied. More than 25 of a variety must be in multiples of 25.
